Project overview

MY SITE aims to train youth residing in Greece - regardless of their background - and help them acquire the tools and skills needed to further develop their business idea and become successful entrepreneurs. The overall objective is to promote entrepreneurship as a means towards social inclusion and integration for both Greeks and third-country nationals, who are often excluded from the labour market thus inhibiting social interaction and exchange.

The project is co-developed and implemented by NGOs and their partners in 5 EU countries (Spain, Italy, Malta, Cyprus, and Greece).

Mentorship scheme

To complement the entrepreneurship training and assist young individuals in successfully developing their business plans and uncovering potential opportunities, while adequately preparing for the risks lying ahead, the project incorporates a pro-bono mentoring scheme. Candidates will be paired with a mentor to support and guide them after the training cycle, with the training material, the business model canvas and provide their expert advice on future steps.
